

**INSTALLATION INSTRUCTIONS:**

1. Insert the 6 mounting tabs for vertical orientation, or 4 mounting tabs for horizontal orientation, into the backbox slots as shown.
2. Using the installed tabs as a template, mark and drill 6 or 4, 1/4 in. diameter holes and complete installation.

**INSTALLATION NOTES:**

1. Certain devices installed in this enclosure may require supervised high and low temperature limits with the listed operational range of the installed device.
2. When replacing the gasket, lubricate it with victaulic brand coupling lubricant only.
3. All conduit fittings must be sealed per NEC 70.

**CLEANING INSTRUCTIONS:**

Rinse with water to remove abrasive dust and dirt. Wash with soap or mild detergent using a soft cloth. (Do not scrub or use brushes or abrasives.) Rinse once more, then dry using a soft cloth or chamois.

To remove grease or wet paint, rub gently with a cloth wetted thoroughly with naphtha (do not use razor blades or gasoline) then wash and rinse.
