

# STI Motion Detector Cages

STI-9621

STI-9622

STI-9619

## PRODUCT OVERVIEW

These super tough cages are extremely effective in reducing malfunctions and high maintenance costs where vandalism or accidental damage is prevalent. They are constructed of heavy-duty steel wire with corrosion resistant polyester coating. Seven sizes are available, two of which are designed to fit motion detectors for corner mount units and the others to fit wall mount applications. All are backed by a three year guarantee against breakage in normal use.

## HOW IT WORKS

A simple 4 fixing point installation makes them easy to mount, and removal is simple for servicing the protected device. They are highly recommended for areas where abuse to motion detectors is severe.

## KEY FEATURES

### General Information

- These super tough cages are extremely effective in reducing malfunctions and high maintenance costs where vandalism or accidental damage is prevalent.
- Three year guarantee against breakage in normal use.

### Design

- These steel cages are designed to protect a security PIR/motion detector from vandalism and misuse.
- Designed so there is no interference with the operation of the protected unit.

### Construction

- Constructed from plastic coated, heavy-duty galvanised steel rod.

### Installation

- A simple 4 fixing point installation can retrofit over existing devices.
- Fast and easy installation.
- Simple removal for servicing of devices.

### Options

- Where additional security is required, tamper resistant screws and matching bits are available.
