

# STI Metal Protective Cabinets

STI-EM121204

STI-EM151804

STI-EM08073.5

## PRODUCT OVERVIEW

These enclosures for electronic equipment (up to 1000V) provide personal protection from hazardous parts and provides a degree of protection to enclosed equipment. EM models are constructed for indoor use. All enclosures offer protection against vandalism, either accidental or intentional. The size allows the enclosures to house significantly sized electronic devices with space to spare. Enclosures mount to the wall enabling units to be protected in their designated location. They have a durable finish to help protect against corrosion.

## KEY FEATURES

### General Information

- Super tough covers to protect larger size devices, components and sensitive modules.

### Design

- Protects fire alarm control panels and large electronic devices from vandalism, as well as dirt, dust and grime. Window allows the unit within to be seen and quickly identified.

### Construction

- Type 4, heavy-duty metal enclosures have a durable finish to help protect against corrosion.

### Installation

- Mounts to the wall enabling units to be protected in their designated location.

### Options

- EM models supplied without a window.
- Unit has two 1/4" turn latches to help prevent unauthorised entry.
- Backplate for EM models sold separately.
