# ReSet Call Points

Product Code Amendments 2017-2018

Old Product Code   New Product Code

RP-\*F   →   RP-\*F2

RP-\*S1   →   RP-\*S2

RP-\*S   →   RP-\*D2

**F2 - For Flush Mount Applications**

(supplied with a wall plate)

**S2 - For Surface Mount Applications**

(supplied with a combined wall plate and back box)

**D2 - For Surface or Flush Mount Applications - Dual Mount Option**

(supplied with a separate wall plate and back box)

The new products codes reflect the new style clip that will come as standard with all models once all stock with the original clip is sold out. This clip is more user friendly than the previous style. Other than the clip update, the ReSet Call Points remain the same in functionality & appearance.

The changes will be made throughout 2017 reflective of stock of the original style clip. This will be represented on the STI website [www.sti-emea.com](http://www.sti-emea.com). Please check the 'Build Your Model' for clarification of which style clip you will be receiving.

For further information, please contact the Sales Team on  
+44 (0)1527 520 999 or email [sales@sti-emea.com](mailto:sales@sti-emea.com).

\*= Represents colour selected (R=Red, G=Green, Y=Yellow, B=Blue, W=White, O=Orange)
